

PROFESSIONAL EXPERIENCE

- **Contour Software** Karachi, Pakistan–Hybrid
Junior Azure Cloud Administrator Aug 2023 – Present
 - **Cloud Solution Development:** Designed, deployed, and managed Azure cloud-based solutions using Azure Resource Manager (ARM) and Infrastructure as Code (IaC) to ensure efficient and scalable deployments.
 - **Infrastructure Optimization:** Enhanced infrastructure performance and reliability by leveraging Azure Monitor, Cost Management, and scalability best practices for multi-environment setups.
 - **Security Optimization:** Collaborated with the security team to optimize protection using tools like Microsoft Sentinel, Defender for Cloud, and third-party solutions like CrowdStrike and Rapid7.
 - **Collaboration and Support:** Worked with cross-functional teams to implement governance using Role-Based Access Control (RBAC), audit logging, and Network Security Groups (NSG), ensuring compliance and security.
 - **Cloud Automation:** Implemented DevOps best practices to the cloud, including deployments and infrastructure management using tools like Ansible, Jenkins, and GitHub Actions, improving efficiency and consistency in Azure environments.
- **Contour Software** Karachi, Pakistan–Hybrid
Trainee DevOps Engineer Aug 2023 – Nov 2023
 - **Linux System Foundation:** Developed a foundational understanding of Linux environments, focusing on command-line navigation, file system management, and user permissions in Ubuntu and CentOS distributions.
 - **Active Directory and IT Operations:** Acquired knowledge of Active Directory for user and resource management, while learning IT support fundamentals such as Windows troubleshooting, password resets, and network connectivity support.
 - **Automation and DevOps Tools:** Explored automation concepts with tools like Docker, Terraform, and Ansible, gaining insights into containerization, infrastructure provisioning, and configuration management practices.
- **Eplanet Global** On-Site
Technical Support Executive Jan 2022 – 2023
 - **Technical Support and Issue Resolution:** Provided efficient support for customer technical issues across Windows Server, Linux, and cloud platforms like AWS and Azure, resolving hardware and software challenges using tools like Datto and SolarWinds RMM.
 - **User and System Administration:** Managed user accounts and access via Azure AD and M365 services (Exchange, SharePoint, Intune, Entra ID, Security & Compliance), while handling package management, patch management, and process, disk, and access management for system stability.
 - **Infrastructure and Data Management:** Supported VMware ESXi, Hyper-V, and Dell PowerEdge servers (via OMSA & iDRAC), configured Synology NAS and Cisco Meraki networks, and ensured data protection through backup and restore using Cove and Veeam.

EDUCATION

- **Iqra University** Karachi, Pakistan
Bachelor's of Science(B.S), Computer Science, CGPA: 3.01/4.0 Aug 2017 – July 2021

CERTIFICATION

- **AZ-104** : Microsoft Certified Azure Administrator Associate
- **AI-900**: Microsoft Certified Azure AI Fundamentals
